## **Axiom Worldwide Distributor in Russia Successfully Closes Down Illegal Operations of an Eltech USA Associated Clinic**

In June of 2012, the Russian Legal System ruled in favor of Axiom Worldwide, Inc's legal exclusive distributor in Russia, OOO Axioma. The lawsuit was the result of a business dispute against a clinic operating illegally and affiliated with Eltech USA. The clinic is called Axiom Medical Center Ltd, and is owned and operated by a Mr. Sergey Sidorenko in Novosibirsk, and Eltech USA is owned by Mr. Ilya S. Marder.

A visit to the Eltech USA website clearly shows the relationship between Eltech, Mr. Marder and Mr. Sergey Sidorenko, as Mr. Sidorenko's clinic is proudly displayed as a successful venture between Mr. Marder of Eltech and Mr. Sidorenko.

OOO Axioma in Russia asked the courts to force the clinic to discontinue the use of illegally obtained DRX9000 medical devices and to award OOO Axioma their attorney's fees. The Russian Courts agreed with OOO Axioma and the defendants must pay OOO Axioma's attorneys fees and must allow the illegal equipment to be confiscated and returned to OOO Axioma. Additional litigation is anticipated as OOO Axioma continues to vigorously defend its exclusive rights in Russia against violations of their Intellectual Property and business interests.

In 2011, Axiom Worldwide, Inc. imitated litigation against a number of individuals and entities for multiple violations of fraud and misappropriation of Axiom Worldwide's Intellectual Property. Eltech USA is a named defendant in that case and it is still pending in the Federal Courts in the USA

A copy of the Eltech USA Website follows this News Update.
